ABSTRACT

The author, institution, subject, and report number indexes which comprise this publication provide access to the accompanying collection of abstracts of reports on research sponsored by the Bureau of Research, Office of Education (OE), between 1956 and 1965. These two publications were prepared by the Educational Research Information Center (ERIC) to make information on research results reported to OE prior to the publication of Research in Education (now Resources in Education) available to the educational community. Keyed to ERIC accession numbers, the collection includes reports numbered from ED 002 747 to ED 003 960. (RAA)

Reproductions supplied by EDRS are the best that can be made from the original document.

## INDEXES

These indexes comprise one volume of a two-volume publication* prepared by the Educational Research Information Center (ERIC) to help teachers, administrators, research specialists, and others in the educational community make better use of available research results.

The research reports cited in these indexes have been produced on projects sponsored by the Bureau of Research, Office of Education, primarily under the Cooperative Research Program (PL 83-531, as amended by PL 89-10). Other legislation authorizing the research projects includes Adult and Vocational Education, PL 88-210; Captioned Films for the Deaf, PL 85-905; Handicapped Children and Youth, PL 88-164; Language Development, PL 85-864, Title VI; New Educational Media, PL 85-864, Title VII, Parts A and B; and Research in Foreign Countries, PL 83-480.

The research reports cover the years from 1956 to 1965 and were received by the Bureau of Research before RESEARCH IN EDUCATION was first published.

*The companion volume, containing informative resumes of the same research reports, should be used in conjunction with these indexes.

# research in education

RESEARCH IN EDUCATION is a monthly catalog that has been published since November 1966 to provide regular announcement for the latest significant findings of educational research. In a format similar to this two-volume publication, RESEARCH IN EDUCATION announces substantive reports received on projects funded by the Bureau of Research, Office of Education, and research materials collected by ERIC's network of subject-oriented information centers. (The ERIC network is discussed in the back of this publication.) RESEARCH IN EDUCATION also announces new research projects as they are funded by the Office of Education so that the reader can keep abreast of ongoing as well as completed research.

RESEARCH IN EDUCATION can be purchased from the Superintendent of Documents, U.S. Government Printing Office, in single copies or by subscription with the order blank shown below.

# organization of this catalog

This volume contains the following indexes to help the reader locate specific research documents:

| | |
|---|---|
| AUTHORS | White pages |
| INSTITUTIONS | Buff pages |
| SUBJECTS | Green pages |
| REPORT NUMBERS | Blue pages |

Each index entry is keyed to the accession number (ED prefix to a six-digit number) that has been assigned to a respective research report. The user can, therefore, readily locate additional information about the cited document by referring to the companion volume of resumes, where informative abstracts of documents are displayed in accession number order.

THE ACCESSION NUMBER IS THE KEY. CONSULT THE INDEXES FIRST.

# availability of reports

The Educational Research Information Center (ERIC) is striving for the widest possible dissemination and use of the research reports cited in this publication and has, therefore, made arrangements for these reports to be purchased at a reasonable cost from the:

ERIC Document Reproduction Service
Bell & Howell Company
1700 Shaw Avenue
Cleveland, Ohio 44112

Prices for individual reports are quoted on the last line of each report citation in the companion volume on resumes. "MF" stands for microfiche; "HC", for hard copy.

A microfiche is a 4" x 6" film card that contains up to 60 pages of text. Hard copy reproductions are 6" x 8", which is about 70 percent as large as the original text.

The inside back cover of this catalog lists additional information about the procedure for ordering reports; an order blank has been included as the last page of this publication.

The ERIC Document Reproduction Service also fills orders for the research materials that are regularly announced in monthly issues of RESEARCH IN EDUCATION.

AUTHOR
INDEX

This index lists reports under the name(s) of their author(s). The index is arranged in alphabetical order by the person's last name.

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the report can be found under that number in the resume section.
